

# Category group entry form

## Excellence in Risk Management

Name of category:  
**Emerging Risk Initiative of the Year**

**Entry criteria:**

The corporate world today is highly interconnected and international, and so are the rising challenges of managing risk initiatives such as employee benefits.

This represents risks which require fresh thinking to tackling complex risk challenges. The award seeks to reward the innovation displayed by risk managers in achieving excellence to meet the challenges of managing employee benefit risks through advanced risk initiatives.

The award will recognise the initiative that redefines the industry's competitive landscape and raises the bar for innovation providing the individual demonstrates:

The ability to solve complex problems through a creative approach to tackling emerging risks

Execution of an innovative programme that was original and different from traditional approaches to traditional risks

Successful project management and team working, results obtained so far, how the initiative enhanced common practices

How this initiative redefined the business process, improved the practice and strengthened the overall operations of the organisation.

**Entry guidelines:**

Nominations for this category can only be made by Ferma's national member associations and each association is invited to make one nomination on behalf of their membership. Entries are limited to a 100 word "why this risk manager deserves to win" statement and up to a 1,250 word entry description. Please complete this form and email with your attached entry to Stewart Brown at [sbrown@commercialriskonline.com](mailto:sbrown@commercialriskonline.com) ensuring you have provided your association name, a contact name and a contact email address and the name of the risk manager you are nominating.
